

# Renewable Energies

datresa
ASESORES

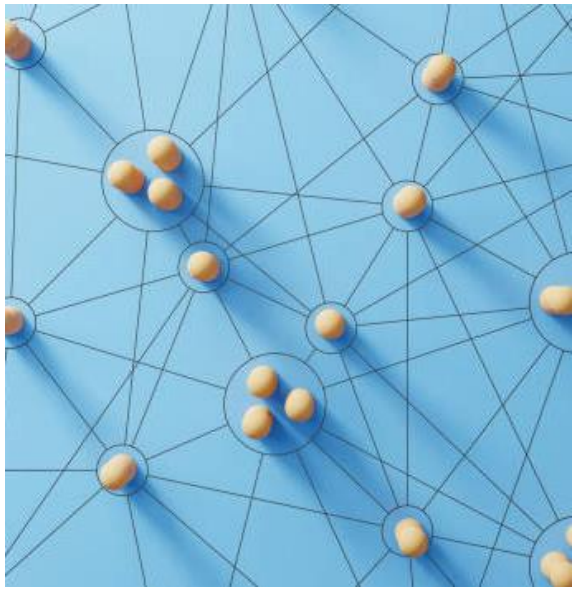

Datresa was founded in 2010 by several professionals in the legal and financial sector with the same concern, to create a different consultancy firm with proximity, **professionalism**, **trust** and **commitment** as its main values.

Datresa offers all the services needed by its clients for global business advice: **tax**, **commercial**, **accounting** and **consultancy** advice.

At Datresa we stand out for our ability to create professional relationships based on **trust**, based on proximity to the client and with the independence that our personality and prestige give us, making the client feel that our professionals are part of their own **team**.

Thanks to the appropriate **coordination** between the team, the multidisciplinary nature of the consultancy allows us to offer global advice to our clients.

With our business continuity systems, coverage, quality and guarantees, we can offer you peace of mind and confidence.

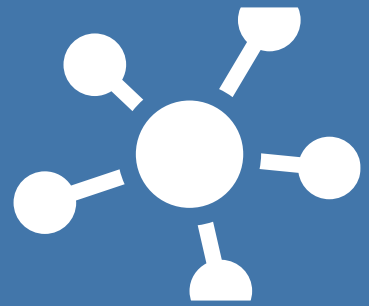

# Tax and accounting consultancy for renewable energy projects

Datresa is committed to **renewable energies** and has extensive experience in the sector, especially in the consultancy and management of project companies (SPV).

Based on our experience, we offer a complete management of these companies from the accounting, tax, commercial and administrative point of view, providing the client with **personalised advice** in all these areas.

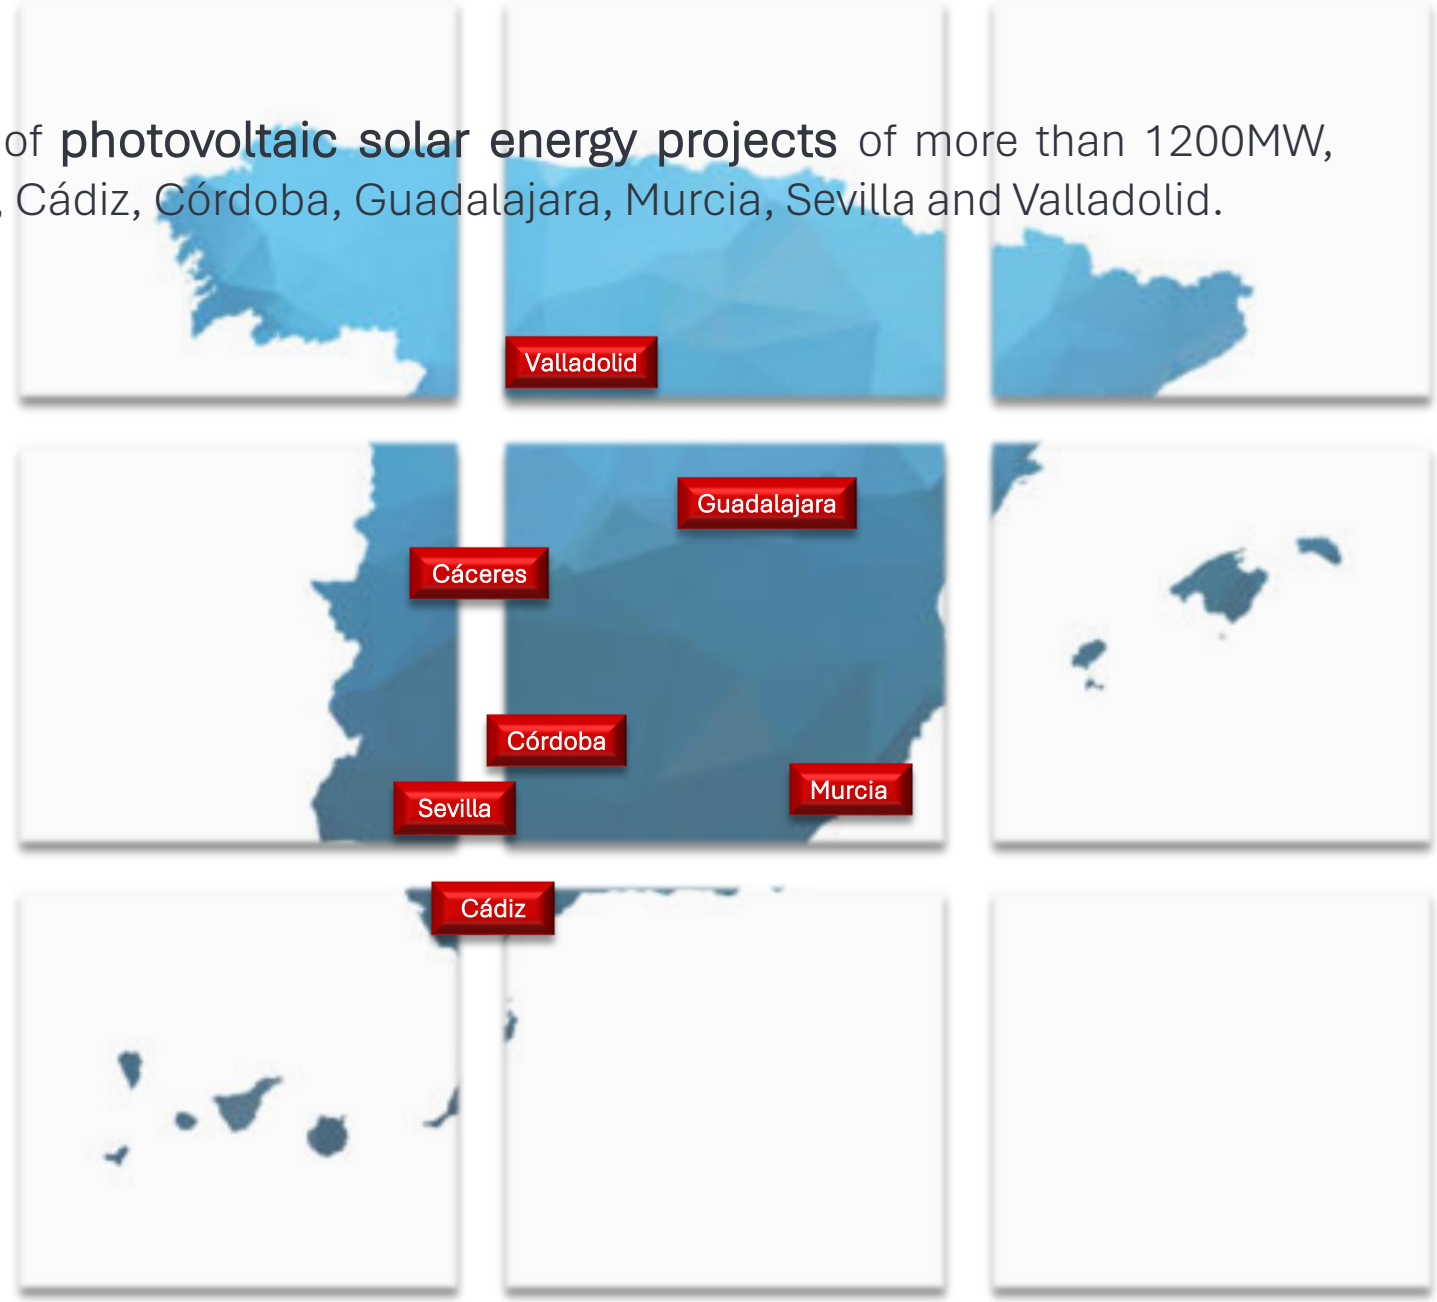

At Datresa we have an **extensive experience in the sector** as we have been working with clients in this sector since the beginning of our activity.

We collaborate with companies in the development of renewable energy projects, **from the initial stage** of the project with the search for suitable land for its construction, to the completion of the construction of the project and its **commissioning**.

Datresa manages a wide portfolio of **photovoltaic solar energy projects** of more than 1200MW, located in the provinces of Cáceres, Cádiz, Córdoba, Guadalajara, Murcia, Sevilla and Valladolid.

# Group companies:

100 kwh Energy, SL

Datresa Asesores, SL

# Development of photovoltaic solar energy projects, technical and financial advice for these projects.

We work with national and international investors, focusing on comprehensive management of the photovoltaic project development process through to construction.

Search and procurement of **land** suitable for a photovoltaic plant

**Processing** of permits, licences, authorisations, etc.

We manage relationships with the different ***stakeholders*** (landowners, distribution company, REE, local, regional and national administrations).

We manage the obtaining of **funding** (private investment and public aid)

The team has been working on photovoltaic projects since 2004, starting with collectively owned "**solar farms**" and since 2016 on "**photovoltaic parks**".
